SUBJECT INDEX

A

Abscesses
  pilonidal, penis (case report), 437
  of urachal remnant, mimicking bladder neoplasm, 510
Adhesives, potential use in urinary tract surgery, 647
Amyloid, urethral (case report), 431
Argyrophil cells, prostatic carcinoma (case report), 544
Artificial urinary sphincter, stress incontinence, 141

B

Bacille Calmette-Guérin (BCG) treatment of superficial bladder cancer, 147
Biofeedback and intravaginal electromyostimulation in treatment of genuine stress urinary incontinence, 584
Bladder
  cancer/carcinoma
    carcinoid, primary (case report), 213
    chemotherapy and radiotherapy inter-relationships, 151
    cystectomy and substitution enterocystoplasty as primary treatment in T2/3 tumours, 260
    cystodiathermy using flexible cystoscope, 518
    free flap surgery for unhealed perineal sinus (point of technique), 326
    koilocytosis in, 46
    metastatic from breast, bilateral hydronephrosis in (case report), 97
    perforation of, presenting as acute abdomen (case report), 541
    rhabdomyosarcoma of bladder base in two children (point of technique), 208
    squamous cell, 369
    superficial, intravesical BCG treatment, 147
    transitional cell, hypereosinophilia, cardiomyopathy and (case report), 661
    transitional cell, survival predicting in irradiated patients using DNA analysis, 49
    vesicosigmoid fistula in (case report), 99
  capacity, comparison of clinical methods of measurement, 17
  dilatation for interstitial cystitis, iontophoretic local anaesthesia (case report), 662
  dynamic clearance, use in comparing methods of prostatic resection, 389
  foreign bodies: five-year review, 41
  gastrocystoplasty in children, 91
  giant diverticulum causing urethral obstruction in infant (case report), 545
  inhibitory effect of GABA, 12
  intestinal metaplasia (case report), 323
  neurogenic, lower urinary tract reconstruction in adolescents, 589
  neurogenic dysfunction, in lumbar intervertebral disc prolapse, 38
  outflow obstruction
    benign prostatic hypertrophy, urinary flow rate, 272
    detrusor innervation changes following relief, 7
  perforation, bladder carcinoma (case report), 541
  reconstruction *see* Cystoplasty
  spontaneous rupture in interstitial cystitis (case report), 102
  Stamey procedure for bladder neck suspension, erosion of buttress (case report), 656
Bone, osteoclastic resorption in metastatic prostate cancer, disodium pamidronate identification, 64

C

Carcinoid, primary, of bladder (case report), 213
Cardiomyopathy, eosinophilia and transitional cell carcinoma of bladder (case report), 661
Catheters
  Foley, endoscopic management of undeflatable balloon (point of technique), 217
  obstructed balloon, harpoon device for removal (point of technique), 217
  persistent indwelling (case report), 100
  suprapubic, migration to anterior urethra (case report), 211
  suprapubic epidural, knotting, in pressure-flow study (point of technique), 329
Chordee, skin, without hypospadias, 428
Chyluria, filarial
  lymphangiography, via right and left feet (case report), 318
  value of radio-imaging, 291
Clomiphene treatment for oligozoospermia, development of Leydig cell tumour (case report), 659
Coil, urethral, insertion, 381
Collagen, endoscopic implantation in treatment of urinary incontinence, 22
Computers, personal, and urological research, 456
Condylomata acuminata, urethral, urethroplasty for (point of technique), 218
Corpus cavernosum, one-step dilatation by cardiac valve dilators (point of technique), 551
Cystectomy, in primary treatment of T2/3 bladder cancer, 260
Cystitis
  emphysematosa (case report), 324
  interstitial
    iontophoretic local anaesthesia for bladder dilatation (case report), 662
    spontaneous rupture of bladder in (case report), 102
Cystodiathermy under local anaesthesia using flexible cystoscope, 518
Cystoplasty
  calcium balance, growth and skeletal mineralisation in patients, 257
  complications of clam enterocystoplasty with special reference to urinary tract infection, 366
  delayed linear growth in children with enterocystoplasty, 314
  in primary treatment of T2/3 bladder cancer, 260
Cystoprostatectomy, sphincter electromyography following, 397
Cystoscopy, flexible, use in cystodiathermy under local anaesthesia, 518
Cysts
  hydatid *see* Hydatid disease
  Müllerian duct, diagnosis and treatment in subfertile males, 79
  pyeloureteritis cystica, renal transplant patient (case report), 210
  seminal vesicle
    complete resolution—evidence for obstructive aetiology, 636
    with renal agenesis and epididymitis (case report), 98
Cytoreduction, hormonal, prostatic carcinoma, 521

D

Detrusor muscle
  inhibitory effect of GABA, 12
  innervation changes following relief of outflow tract obstruction, 7
  instability, subtrigonal phenol injection treatment in female, long-term urodynamic follow-up, 363
Disodium pamidronate identification of differential osteoclastic bone resorption in metastatic prostate cancer, 64

E

Electromyography, sphincter, after radical prostatectomy and cystoprostatectomy, 397
Electromyostimulation, intravaginal, and biofeedback in treatment of genuine stress urinary incontinence, 584
Encrustation
  development of synthetic polymers resistant to encrustation on exposure to urine, 651
  intraprostatic stents, 383
Endometriosis of ureter, 430 (case report), 495
Enterocystoplasty
  children, delayed linear growth, 314
  clam, complications, with special reference to urinary tract infection, 366
  in primary treatment of T2/3 bladder cancer, 260
Eosinophilia, cardiomyopathy and transitional cell carcinoma of bladder (case report), 661
Epididymis, metastatic malignant melanoma (case report), 661
Erratum Volume 68 No 2 August 1991 pages 138–143 A Consumer's Guide to Commercially Available Urodynamic Equipment, 336
Epididymitis, with seminal vesicle cyst and renal agenesis (case report), 98
Extracorporeal shock wave lithotripsy (ESWL)
  caliceal stones, selective flushing of retained gravel (point of technique), 327
  generalized seizure following (case report), 542
  renal stones, children, 303
  severe haemorrhage after (case report), 214
  Storz Modulith SL20, 465
  ureteric stone management, 253
    reverse supine position on Lithostar for lower ureteric stones (point of technique), 550
    use of J-wire in retrograde manipulation prior to treatment, 568

F

Fibrosis, retroperitoneal (peri-aortitis), rate of development of ureteric obstruction (case report), 102
Fistulae
  hypospadias, surgery for, 306
  vesico-coccygeal, revealing pelvic malakoplakia (case report), 100
  vesicosigmoid, in bladder cancer (case report), 99
Flow mechanics, prostatic resection, 389
Foreign bodies
  bladder: five-year review, 41
  urethra (case report), 434
Fournier's gangrene (case report), 543
Frequency, comparison of clinical methods of measurement, 17

G

Gamma-amino-butyric acid (GABA), inhibitory role in urinary bladder, 12
Gangrene, Fournier's (case report), 543
Gastrocystoplasty, children, 91

Germ cell alkaline phosphatase in human seminal plasma following vasectomy, 418

H

Haemospermia (review), 225
Histiocytoma, malignant fibrous, renal capsule (case report), 435
Hormonal cytoreduction, prostatic carcinoma, 521
Hydatid disease
  primary hepatorenal (case report), 436
  urinary tract, evaluation of diagnostic methods, 476
Hydroceles, abdominoscrotal (case report), 547
Hydronephrosis, secondary to breast carcinoma metastasising to bladder (case report), 97
Hypercalciuria, thiazide treatment for calcium urolithiasis, 571
Hypospadias
  with enlarged prostatic utricle, testicular function in, 192
  fistula, surgery for, 306

I

Iliopelvic lymphoscintigraphy detection of lymph node invasion in prostatic carcinoma, 180
Impotence
  combined papaverine test and radionuclide penile blood flow, 408
  comparison of effects of intracorporeal injection of papaverine and prostaglandin E_1, 404
  non-invasive management with transcutaneous nitroglycerin, 88
Incontinence
  post-prostatectomy, transurethral Polytef injection, 26
  stress
    endoscopic collagen implantation, 22
    initial urethral pressure increase, 137
    subjective and objective effects of intravaginal electrical myostimulation and biofeedback in genuine stress urinary incontinence, 584
    treatment, perurethral Teflon injections, long-term follow-up, 580
    treatment, role of artificial urinary sphincter, 141
    treatment, Stamey-Martius procedure, 34
    urethral stress relaxation in, 75
Interferon, alpha-interferon in treatment of metastatic recurrent renal carcinoma, clinical trial, 491
Intervertebral disc prolapse, lumbar, and neurogenic bladder dysfunction, 38
Iontophoretic local anaesthesia for bladder dilatation in treatment of interstitial cystitis (case report), 662

K

Kidneys
  agenesis, with seminal vesicle cyst and epididymitis (case report), 98
  carcinoma
    alpha-interferon therapy in metastatic or recurrent disease, clinical trial, 491
    prognostic value of renal venous involvement, 481
    solitary kidney, treatment by extracorporeal resection and autotransplantation, 486
    transitional cell, dialysis in, 577
    urinary tract metastasis from, 250
  dialysis, in upper urinary tract transitional cell carcinoma, 577
  hydatid disease (case report), 436
  multicystic dysplasia in infants, 538
  percutaneous surgery, radiation protection, 231
  scarring
    in acute pyelonephritis, 245
    correlation with vesicoureteric reflux, 294
    detection, comparison of DMSA scintigraphy and intravenous urography, 294
  stab wounds, selective surgical management, 351
  stones *see* Stones, kidney
  unilateral disease, compensatory hypertrophy indicating degree of impaired renal function, 346
  see also Renal...
Koilocytosis, in neoplasia of urinary bladder, 46

L

Laparoscopy, perspectives and practice (review), 561
Laser treatment
  benign prostatic hypertrophy, 603
  posterior urethral valves in neonate, 425
Leydig cell tumour in association with clomiphene treatment for oligozoospermia (case report), 659
Lithotripsy
  extracorporeal shock wave *see* Extracorporeal shock wave lithotripsy
  percutaneous, renal stones, in over 1000 patients, 470
  percutaneous ultrasonic, cystine stones (case report), 433
  pulsed dye laser, 358
Lymphangiography, pedal, filarial chyluria (case report), 318

M

Malakoplakia, pelvic, vesico-coccygeal fistula in (case report), 100
Malignant melanoma
  metastatic
    of epididymis (case report), 661
    of testis (case report), 657
  primary, male urethra (case report), 212
Metaplasia
  intestinal, of bladder (case report), 323
  squamous, penile urethra, due to oestrogen therapy, 282
Müllerian duct cyst, diagnosis and treatment in subfertile males, 79
Mycobacteria isolated from urine and genitourinary tract in South- East England, 1980-1989, 640

N

Nephrectomy
  extracorporeal partial, renal carcinoma in solitary kidney, 486
  partial, linear stapling device (point of technique), 218
Nephrolithotomy, percutaneous, effect on thermoregulation, 132
Nitroglycerin, transcutaneous, in management of impotence, 88
Noonan's syndrome in male pseudohermaphrodite (case report), 96
Norfloxacin prophylaxis for endoscopic urological surgery, 421

O

Orchiopexy, neo-gubernaculum technique (point of technique), 550

P

P53 and Ki-67 immunoreactivity in human prostate cancer and benign hyperplasia, 609
Paneth cells, prostatic carcinoma (case report), 544
Papaverine
  intracorporeal injection, comparison with prostaglandin E_1 in impotence treatment, 404
  use in testing of penile blood flow in impotence, 408
Penis
  blood flow in impotence, measurement by papaverine test and radionuclide labelling, 408
  pilonidal abscess (case report), 437
  pilonidal sinus (case report), 210
  squamous metaplasia due to oestrogen therapy, 282
  strangulation by hair (case report), 319
Peri-aortitis *see* Fibrosis, retroperitoneal
Perineal sinus, free flap surgery (point of technique), 326
Peyronie's disease, pre-operative assessment using colour Doppler sonography, 629
Phenol, subtrigonal injections in treatment of detrusor instability in female, long-term urodynamic follow-up, 363
Phosphatase, germ cell alkaline *see* Germ cell alkaline phosphatase
Polymers, synthetic, development of products resistant to encrustation on exposure to urine, 651
Polytef *see* Polytetrafluoroethylene
Polytetrafluoroethylene injections
  carcinogenicity, 29
  perurethral, stress incontinence, long-term follow-up, 580
  Teflon paste injection in treatment of vesicoureteric reflux, 507
  transurethral, in treatment of post-prostatectomy urinary incontinence, 26
Prostaglandin E_1, intracorporeal injection, comparison with papaverine in impotence treatment, 404
Prostate
  benign hyperplasia, p53 and Ki-67 immunoreactivity, 607
  benign hypertrophy
    laser ablation, 603
    urinary flow rate in relation to degree of obstruction of vesical outlet, 272
  cancer/carcinoma
    clinically localised, deferred treatment, 183
    disodium pamidronate in identification of differential osteoclastic bone resorption in metastatic disease, 64
    hormonal cytoreduction and radiotherapy, 521
    hormone-resistant, prostate-specific antigen and other prognostic factors, 175
    hyperechoic appearance in transrectal ultrasonography, 169
    identification of metastatic disease by T category, Gleason score and serum PSA level, 277
    lymph node invasion, detection with ilio-pelvic lymphoscintigraphy, 180
    metastatic, circulating prostate specific antigen-positive cells and, 392
    natural history and prognosis, adolescents and men under 35 years, 525
    p53 and Ki-67 immunoreactivity, 609
    Paneth and argyrophil cells (case report), 544
    spinal cord compression, 530
    testicular metastases in patients treated with LH-RH analogues (case report), 657
    Zoladex versus stilboestrol in treatment of advanced disease, phase III randomised study, 614
  insertion of intraprostatic coil, 381
  surgery, flow mechanics, 389
  transurethral resection
    comparison with open prostatectomy, large prostate gland, 598
    comparison with open prostatectomy, prospective trial, 372
    irrigation fluid absorption, effect of bladder pressure warning device, 56
    patient questionnaire in assessing symptoms before and after surgery, 375
Prostatectomy
  audit: phase 1—insights and questions, 163
  incontinence following, transurethral Polytef injection, 26
  open
    comparison with transurethral resection, large prostate gland, 598
    comparison with transurethral resection, prospective trial, 372
  sphincter electromyography following, 397
  see also Prostate, transurethal resection
Prostatic specific antigen (PSA)
  and eosinophilic prostatitis, 61
  in identification of metastatic disease in prostate carcinoma patients, 277
  as prognostic factor in hormone-resistant prostatic cancer, 175
Prostatic utricle, enlarged, in hypospadias, testicular function in, 192
Prostatitis
  circulating PSA-positive cells and metastatic prostate cancer, 392
  eosinophilic, prostatic specific antigen and, 61
Pseudohermaphroditism, male, Noonan's syndrome and (case report), 96
Pyelonephritis, acute, renal cortical scarring, 245
Pyeloureteritis cystica, renal transplant patient (case report), 210
Pyuria, and spinal cord injuries, 144

R

Radiation protection, percutaneous renal surgery, 231
Renal
  capsule, malignant fibrous histiocytoma (case report), 435
  see also Kidneys
Renal pelvis, urothelial tumour, in patient with crossed ectopia (case report), 215
Renography, diuresis
  F-15, in suspected upper urinary tract obstruction, 126
  failure in diagnosis of upper urinary tract obstruction (point of technique), 549
  interpretation, importance of renal function, 121
  review article, 113
Rhabdomyosarcoma, bladder base, two children (case report), 208

S

Scintigraphy
  DMSA, comparison with intravenous urography for detection of renal scarring, 294
  iliopelvic lymphoscintigraphy detection of lymph node invasion in prostatic carcinoma, 180
  renal, diagnosis of urinary leak in critically ill patient using ^{99}Tc-DTPA renal scarring (point of technique), 666

Scrotum
blunt trauma without haematocele, value of ultrasound, 286
scrotal bladder with scrotal calculi (case report), 320
Seminal vesicle cyst
complete resolution of large cyst—evidence for obstructive aetiology, 636
renal agenesis and epididymitis (case report), 98
Sinus, perineal, free flap surgery (point of technique), 326
Spinal cord
compression in prostatic cancer, 530
injuries, pyuria in, 144
Spine, lumbar intervertebral disc prolapse, and neurogenic bladder dysfunction, 38
Stamey-Martius procedure, stress incontinence, 34
Staplers, linear, use in partial nephrectomy (point of technique), 218
Stents
intraprostatic
complication (case report), 322
encrustation, 383
stone formation on self-expanding metallic stent (case report), 430
Stilboestrol, comparison with Zoladex in treatment of advanced prostate cancer, 614
Stones
calcium, formation, thiazide treatment in patients with idiopathic hypercalciuria, 571
caliceal, selective flushing of retained gravel following extracorporeal shock wave lithotripsy (point of technique), 327
cystine, treatment by percutaneous ultrasonic lithotripsy (case report), 433
formation, on self-expanding metallic stent (case report), 430
kidney
children, extracorporeal shock wave lithotripsy, 303
percutaneous lithotripsy in over 1000 patients, 470
scrotal (case report), 320
ureteric
extracorporeal shock wave lithotripsy, reverse supine position on Lithostar for lower ureteric stones (point of technique), 550
management using second generation lithotriptor, 253
pulsed dye laser lithotripsy, 358
use of J-wire in retrograde manipulation prior to ESWL, 568
urinary tract
recurrent infection with apparently negative cultures, blind antibacterial treatment, 234
upper, rural community in north-eastern Thailand, 240
Surgery, endoscopic urological, norfloxacin prophylaxis, 421

T

Teflon *see* Polytetrafluoroethylene
Temperature, body, percutaneous nephrolithotomy, 132
Testes
blunt trauma without haematocele, value of ultrasound, 286
cancer
Leydig cell tumour in association with clomiphene treatment for oligozoospermia (case report), 659
metastatic from prostatic carcinoma treated with LH-RH analogues (case report), 657
metastatic melanoma simulating primary seminoma (case report), 663
stage 1 non-seminomatous germ cell tumours, treatment decision based on risk factor 'vascular invasion', 83
chronic pain following vasectomy, 188
contralateral blood flow in unilateral testicular torsion, measured by ^{133}Xe clearance technique, 633
function, in hypospadias with enlarged prostatic utricle, 192
infarction, localised (case report), 541
perineal ectopic (case report), 547
single, fixation, 311
torsion, contralateral blood flow measured by ^{133}Xe clearance technique, 633
Thermoregulation, percutaneous nephrolithotomy, 132
Thiazide treatment for calcium urolithiasis in patients with idiopathic hypercalciuria, 571
Tissue adhesives, potential use in urinary tract surgery, 647

U

Ultrasound
colour Doppler, in pre-operative assessment of Peyronie's disease, 629
testicular, in evaluation of blunt scrotal trauma without haematocle, 286
transrectal, 1992 (review), 449
Urachus, abscess, mimicking bladder neoplasm, 510
Ureter
endometriosis, 430 (case report), 495
obstruction, rate of development in idiopathic retroperitoneal fibrosis (case report), 102
Ureterosigmoid anastomosis, carcinoma induction at, 499
Urethra
amyloid (case report), 431
condylomata acuminata, urethroplasty for (point of technique), 218
foreign body (case report), 434
injury secondary to penile strangulation by hair (case report), 319
malignant melanoma of male urethra (case report), 212
obstruction in infant caused by giant bladder diverticulum (case report), 545
penile, squamous metaplasia due to oestrogen therapy, 282
polyps, anterior (case report), 321
posterior valves
delayed presentation (case report), 318
laser treatment in neonates, 425
pressure, initial increase in stress epidsodes in genuine stress incontinence, 137
prostatic, coil insertion, 381
sphincter electromyography after radical prostatectomy and cystoprostatectomy, 397
stress relaxation
healthy females, 71
healthy and stress incontinent females, 75
Urethroplasty
condylomata acuminata throughout urethra (point of technique), 218
one-stage scrotal patch, long-term results, 621
Urinary diversion, continent versus standard, 156
Urinary reservoirs, continent, 513
Urinary tract
hydatid disease, evaluation of diagnostic methods, 476
infection
clam enterocystoplasty, 366
recurrent, psychological factors, 460
lower
reconstruction for neurogenic bladder in adolescents, 589
total substitution for either reconstruction or continent diversion, 594

metastasis from renal carcinoma, 250
stones *see* Stones, urinary tract
upper
obstruction, failure of diagnostic renography (point of technique), 549
suspected obstruction, F-15 diuresis renogram, 126
transitional cell carcinoma, dialysis in, 577
Urine
flow
age-related variables in elderly males, 265
rate, in benign prostatic hypertrophy, in relation to degree of bladder outlet obstruction, 272
frequency, comparison of clinical methods of measurement, 17
leak, diagnosis in critically ill patient using bedside ^{99}Tc-DTPA renal scarring (point of technique), 666
retention
acute, caused by anterior urethral polyp (case report), 321
in infant, caused by giant bladder divertculum (case report), 545
Urodynamics, knotting of suprapubic epidural catheter with urethral filling tube (point of technique), 329
Urography, intravenous, comparison with DMSA scintigraphy for detection of renal scarring, 294
Urolithiasis, calcium, thiazide treatment in patients with idiopathic hypercalciuria, 571
Uropathy, interactive obstructive (review), 337

V

Vasectomy
chronic testicular pain following, 188
germ cell alkaline phosphatase in seminal plasma following, 418
Vena cava, inferior, obstruction secondary to urinary retention in neonate (case report), 656
Vesico-coccygeal fistula, revealing pelvic malakoplakia (case report), 100
Vesicosigmoid fistula, in bladder cancer (case report), 99
Vesicoureteric reflux
correlation with renal scarring, 294
prevention by endoscopic injection (review), 1
in sibships, 534
treatment by Teflon paste injection, 507

Z

Zoladex, comparison with stilboestrol in treatment of advanced prostate cancer, phase III randomised study, 614
